STOCKS, BONDS, MONEY, AND GRAIN

Sharp Gains at Opening. Investment Buying Very Heavy -Bankers Apply Brakes.

NEW YORK, Nov. 12.-Noon.-Once more the market started off with a show of confidence that presaged higher prices, and that made some of the close observers fear a reaction. It is patent that the market is not due for a bound and a bulge. Every time the price is tempting there will be a liquidation of the stocks purchased in October, at a time when support had to come or the market would have broken almost in twain. This very selling was in evi-dence when the price became toppy

If the reader wants encouragement he may find it in the statement by J. P.Morgan & Co., that they have "opened nearly 9,000 new accounts during the last few weeks, purchasers of odd-lots of stock, rarely over thirty shares, and between ten and thirty shares each."

tween ten and thirty shares each."
There is encouragement.

Post & Flagg, the well-known bankers and brokers, have purchased \$16,000,000 of stock for actual investment, stocks that have been removed from the supply and locked away—stocks that have been bought by people who have been waiting for just such an opportunity as that offered during the last two weeks, and which is nearly as mush of an opening today as it was thea. And these are but two instances. They represent two out of 100 similar cases of more or less investment buying.

It was this buying and not manipulation that stopped the shorts in their mad career, that checked the decline, and turned the trend of the market it the other direction.

Bankers Put on Brakes.

It must be apparent to everyone that the financial interests of New York city COTTON MARKET HIGHER: will not permit of any wild bull market better, but they are not all right. Conservatism must be the rule and not the exception, for the scars are deep, and there are many raw spots today that must be cared for. Stocks are a bargain to be paid for and taken out of the market. Speculation is to be condemned.

Today's Market.

The opening was with more or less of a spurt. Nearly everything iron hand. Conditions are admittedly

less of a spurt. Nearly everything was higher right from the tap of the bell. St. Paul, Copper, and Smelter were the exceptions. Before the openthat Standard Oll Interests would get under St. Paul, but it was evidently without foundation, because this was one of the weaklings of the session. During the first hour advances were made in all the stocks, except the three noted. In some the gains were less than others. In the second nour there were reactions, in some cases amounting to all of the earlier gains. Then there was a slight recovery, and at noon the market was very dull, steady, and a little above the low point, while in nearly all instances slightly better than yesterday. ng, the street was in possession of a tip Swanson, the mayors of this city as

yesterday.

Copper lost a full point. St. Paul also lost about the same. Atchison was a point higher, and held but ¼ of the gain until noon. Canadian Pacific made a splendid rally. It sold at 14½ to 145%, as compared with a close at 112 yesterday, and at noon was 14½. Delaware and Hudson opened at 131, or 1½ better and reacted to 130. Great Northeyn lost Newport News, and Harry St. Georg Tucker, president of the Jamestown Ex-position Company. When President Gompers called th when Fresident Gompers called convention to order at 11 o'clock, were over 460 delegates in attendance sides many visitors and friends of immediately associated with the leaders. Mr. Gompers was made

and Hudson opened at 131, or 1½ better and reacted to 130. Great Northern lost its advance and a point more, going off to 14. General Electric lost the earlier gain and ½ point. Northern Pacific was a point up to ½ below yesterday's finats. Pennsylvania was a point up to steady, at ½ loss. People's Gas furnished the surprise of the session. It opened at 2½ advance, or at 78, and dropped quickly to 75½. St. Paul, led to 162¼ to 163. Union Pacific advanced to 114¼, and, turning, declined to 112½.

Steel common, 25% to 25; preferred, 85½ to 85½.

NEW YORK, Nov.12—2 p.m.—The trend toward a lower range continued during the first and second hours of the afternoon. There was considerable profit taking and the shorts, encouraged by signs of a reaction, pushed their advantage to the best of their ability. The loss in Copper was a good thry points, with ¾ recovery. Canadian Pcific dropped back from 145% to 342½. Great Northern was back to 113%, a loss of 1½ net for the day. Northern Pacific lost 1½ net. New York eCutrai. 1½; Reading, 1½; Union Pacific, over a point, and the Steels lost ½ point on both common and preferred.

FINANCIAL GOSSIP

transferred six tons of gold from the subtreasury to its vaults yesterday.

The Brussels department of the Bigelow Carpet Company's works, at Lowell, Mass., closed down yesterday, but not through a desire to curtail product, but through demands for higher wages. This would seem to indicate poor management of labor unions to think of a strike at this time.

Kalser will make the only public appearance of his stay in England tomorrow and Scotland Yard is in a fever of apprehension lest an attempt be made upon his life.

The authorities naturaly deny the story that evidence has been discovered.

Three thousand men and women in the employ of the American Woolen Mills Company of Maynard, Mass., were laid off "indefinitely."

The additional states in a been discovered of a plot to assasinate him, but the precautions taken to guard him on his way from Windsor to London, during his stay here and on the return trip indicate a great deal of unsatiness.

off "indefinitely."

It is likely that the Cunard Line may operate steamers between England, Canada, and the Orient

The Oceanic, due tomorrow, carries \$8.000.000 gold. Every dellar is an ounce of potent medicine.

Liverpool bought 12.000 bales of American cotton yesterday.

Odd-lot investment buying is the foundation for a better stock market, With every week of steadiness it will increase.

The railway line from Windsor to Paddington station will be inspected almost inch by inch, a dummy train will precede the Kaiser's special both going and comfig, and the twenty-one mile run will be made between nearly continuous lines of troops.

The Kaiser has accepted the city of London's invitation to lunch with the lord mayor at the Guildham. It is much more difficult to keep the crowds at a distance in this country than in Germany and some ground seems to exist for the fear that terrorists from the Continent may deem the opportunity a good one for a blow at a crowned head.

The railway line from Windsor to Paddington station will be inspected almost inch by inch, a dummy train will precede the Kaiser's special both going and comfig, and the twenty-one mile run will be made between nearly continuous lines of troops.

The Kaiser has accepted the city of London's invitation to lunch with the lord mayor at the Guildham. It is much more difficult to keep the crowds at a distance in this country than in Germany and some ground seems to exist for the fear that terrorists from the Continent may deem the opportunity a good one for a blow at a crowned head.

Eighty-two shares of stock and \$1,500

change. This seems to be patent without much necessity for comment, yet sentiment was perhaps much better. That there was not much more bus!ness transacted is due to the "stand-pat" policy of Washington investors. They in view of tight money the world over, there is only a disposition, here as in New York, to pick up bargains. Because of the limited speculation in our market the breaks have been so moderate that there are not many opporfunities to pick up bargains as there are in New York and speculative cen-

ters.
In the stock sales there was fifty shares sold in four lots. There were six sales to aggregate the remaining thirty-two shares.

GENERAL ROSS DEAD;

BALTIMORE, Md., Nov. 12.—Gen. William E. W. Ross, one of the most widely known Grand Army men in Maryland, died this morning at his residence in this city. He had been in failing health for several months.

EACH HAD TO DRINK YARD OF CHAMPAGNE

In becoming councilors of the "Ancient Corporation," which existed a century before the incorporation of the town of Hanley, England, each new member had to drink a yard of champagne at the annual dimer. This is an old custom. The liquor, contained in a glass three feet in length, was hoisted to the lips of the new councilors by two stalwart cup-bearers. The glass was never lowered until it was empty, and those who falled to quaif the contents to the dregs had to put up with the inconvenience had to put up with the inconvenien of soiled shirt fronts.
